Supplemental cash flow information (note 14)

The accompanying notes are an integral part of these condensed consolidated interim financial statements.

(expressed in Canadian dollars)

1. Nature of operations and going concern

General information

On July 31, 2020, the company changed its name to C3 Metals Inc. (referred to herein collectively with its subsidiaries as the "Company") from Carube Copper Corp. Additionally, the Company's ticker symbol on the TSX Venture Exchange ("TSX-V") was changed to CCCM. On June 18, 2015, Miocene Resources Limited ("Miocene") completed a reverse takeover with Carube Resources Inc. (CRI). On July 7, 2015, the Company commenced trading on the TSX-V under the former name Carube Copper Corp.

C3 Metals Inc. is an exploration stage junior mining company. Since November of 2009, the Company has been engaged in the identification, acquisition, evaluation and exploration of mineral properties. The Company has not determined whether any of its properties contain mineral resources that are economically recoverable. The recoverability of any amounts recorded for mineral exploration properties and deferred exploration expenditures is dependent upon the discovery of economically recoverable resources, the ability of the Company to obtain the necessary financing to complete the development of these resources and upon attaining future profitable production from the properties or sufficient proceeds from disposition of the properties.

The Company's registered office is located at 161 Bay Street, 27th Floor, Toronto, Ontario, Canada where it is domiciled. The Company's subsidiaries include: Carube Resources Inc., domiciled in Toronto, Canada; Carube Resources Jamaica Limited and Rodinia Jamaica Limited, which are both domiciled in Kingston, Jamaica; Latin America Resource Group Limited, domiciled in Toronto, Canada; and, C3 Metals Peru S.A.C. (formerly KA Oro S.A.C.), domiciled in Lima, Peru.

Going concern

These consolidated financial statements have been prepared using International Financial Reporting Standards (IFRS) applicable to a going concern which assumes that the Company will be able to continue its operations and will be able to realize its assets and discharge its liabilities in the normal course of business for the foreseeable future.

From inception to date, the Company has incurred losses from operations and has had negative cash flows from operating activities. As at February 28, 2020, the Company had working capital of $8,910,965. Given the Company's plans for significant exploration expenditures focused on the Jasperoide, Peru project during 2021, existing funds on hand are not sufficient to support planned exploration costs, costs of acquiring new exploration properties or ongoing corporate costs over the coming year. These conditions raise material uncertainties that may cast significant doubt about the Company's ability to continue as a going concern, and accordingly, the appropriateness of the use of the accounting principles applicable to a going concern. During February 2021, the Company closed a brokered private placement financing raising gross proceeds of approximately $7.4 million. Subsequent to quarter end, the Company realized proceeds from the exercise of warrants and broker warrants of approximately $2.1 million (see note 16). The Company will require additional funding to be able to advance and retain mineral exploration property interests and to meet ongoing requirements for general operations. The ability of the Company to continue as a going concern is dependent on its ability to raise required financing whether through equity or debt financing; through joint ventures; the generation of profits from operations; or, the sale of property assets in the future.

There is no assurance that additional future funding will be available to the Company, or that it will be available on terms which are acceptable to management.

These consolidated financial statements do not reflect any adjustments to the carrying values of assets and liabilities and the reported amounts of expenses and statement of financial position classifications that would be necessary if the Company were unable to realize its assets and settle its liabilities as a going concern in the normal course of operations. Such adjustments could be material.

2. Significant accounting policies

Statement of compliance with International Financial Reporting Standards

These unaudited condensed consolidated interim financial statements have been prepared in accordance with International Accounting Standard 34, Interim Financial Reporting (IAS 34). These condensed consolidated interim financial statements do not include all the information and disclosures required in annual financial statements and should be read in conjunction with the Company's annual consolidated financial statements for the years ended August 31, 2020 and 2019 which have been prepared in accordance with IFRS.

These financial statements were approved by the board of directors for issue on April 28, 2021.

General information and basis of consolidation

C3 Metals Inc. (formerly Carube Copper Corp.) was incorporated under the *Business Corporations Act (Ontario)* on March 29, 2010. The Company completed a reverse takeover with CRI on June 18, 2015. Carube Resources Inc. was incorporated under the *Business Corporations Act (Ontario)* on August 2, 2007 under the name 2144321 Ontario Inc. and was inactive until October 2009 at which time its name was changed to CRI. On March 31, 2011, CRI incorporated Carube Resources Jamaica Limited (CRJL), a wholly-owned Jamaican subsidiary, in order for it to hold the Bellas Gate project mineral exploration licences and to conduct business as operator of the project. On March 31, 2012, CRI acquired all of the outstanding shares of Rodinia Jamaica Limited (RJL) in exchange for common shares of CRI. RJL held title to four Special Exclusive Prospecting Licenses (SEPLs) in Jamaica. On February 26, 2020, the Company acquired all of the outstanding shares of Latin America Resource Group Limited (LARG) along with its wholly-owned Peruvian subsidary, KA Oro S.A.C., which has been renamed C3 Metals Peru S.A.C. (C3 Peru).

The Company's financial statements consolidate those of the parent company and each of its 100% wholly-owned subsidiaries CRI, CRJL, RJL, LARG and C3 Peru. All inter-company balances and transactions are eliminated upon consolidation. The consolidated financial statements are expressed in Canadian dollars and are prepared using the historical cost method.

(expressed in Canadian dollars)

Critical accounting estimates and judgments

The preparation of interim financial statements requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

In preparing these condensed interim financial statements, the significant judgments made by management in applying the Company's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the consolidated annual financial statements for the year ended August 31, 2020.

3. Summary of significant accounting policies

These condensed consolidated interim financial statements have been prepared using accounting policies that are consistent with those used in the preparation of the Company's audited annual consolidated financial statements for the years ended August 31, 2020 and 2019 except as described in the notes to these condensed consolidated interim financial statements.

Changes in IFRS accounting policies and future accounting pronouncements

Certain pronouncements were issued by the International Accounting Standards Board (IASB) or the International Financial Reporting Interpretations Committee (IFRIC) that are mandatory for accounting years ended after December 31, 2019. Many are not applicable or do not have a significant impact on the Company and have been excluded from the summary below.

IFRS 16, Leases ("IFRS 16")
IFRS 16, Leases, was issued by the IASB in January 2016. For lessee accounting the new standard brings most leases on to the statement of financial position under a single model, eliminating the distinction between operating and finance leases. Lessor accounting however remains largely unchanged and the distinction between operating and finance leases is retained. This standard was effective for annual reporting periods beginning on or after January 1, 2019. The Company has applied IFRS 16 with an initial application date of September 1, 2019 using a modified retrospective approach with the cumulative effect of initially applying the standard recognized at the date of initial application, without restating prior periods, in accordance with the transitional provisions specified in IFRS 16. The adoption of IFRS 16 had no impact on the Company's results of operations, financial position, and disclosures.

IFRIC 23, Uncertainty over Income Tax Treatments ("IFRIC 23")
In June 2017, the IASB issued IFRIC 23. IFRIC 23 clarifies the determination of taxable profit (tax loss), tax bases, unused tax losses, unused tax credits and tax rates, when there is uncertainty over income tax treatments under IAS 12 and requires an entity to consider whether it is probable that the relevant authority will accept each tax treatment, or group of tax treatments, that it uses or plans to use in its income tax filing. IFRIC 23 is effective for annual periods beginning on or after January 1, 2019 and permits early adoption. The adoption of IFRIC 23 did not have a material impact on the consolidated financial statements.

4. Restricted deposits

The Company has established a corporate credit card account for the payment of travel and corporate costs. An amount of $15,148 (August 31, 2020 - $15,062) held in a guaranteed investment certificate has been pledged as collateral for the maximum credit limit on this credit card account.

5. Amounts receivable

Amounts receivable of $79,752 (August 31, 2020 - $13,204) is comprised entirely of harmonized sales tax (HST) receivable in Canada.

6. Marketable securities

During March 2019, the Company received 500,000 common shares of Tocvan Ventures Corp. ("Tocvan") under the terms of the option agreement for the Rogers Creek, BC project (see note 8). During June 2020, the Company received an additional 200,000 common shares of Tocvan in connection with the first anniversary payment under the option agreement, increasing the Company's total holding to 700,000 common shares. These shares are classified as fair value through profit and loss and are recorded at fair value using the quoted market price of Tocvan's common shares on the Canadian Securities Exchange. The following table summarizes information regarding the Company's marketable securities.

	$
Balance, August 31, 2019	37,500
Addition during June 2020 (note 8)	50,000
Unrealized gain	112,000
Balance, August 31, 2020	199,500
Unrealized gain	346,500
Balance, February 28, 2021	546,000

(expressed in Canadian dollars)

7. Acquisition of Latin America Resource Group Limited

On February 26, 2020, the Company completed the acquisition of all of the issued and outstanding shares of Latin America Resource Group Limited (LARG) a private Canadian company located in Toronto, Ontario. LARG has a 100% wholly-owned Peruvian subsidiary named KA Oro S.A.C. (renamed C3 Metals Peru S.A.C.) which holds a 100% beneficial interest in eight exploration concessions and has option agreements to earn a majority interest in five additional concessions. These 13 concessions comprise the Jasperoide copper-gold project, located in the Andahuaylas-Yauri belt of Peru (see note 8).

Under the terms of a share purchase agreement the Company acquired LARG with the issuance of 104,025,001 common shares. Additionally, the Company exchanged all of LARG's outstanding stock options for 14,070,000 stock options of the Company (see note 9). LARG was granted the right to nominate one director to the Company's board. The Company also issued 1,400,000 common shares to a finder for this acquisition. The fair value of the common share consideration issued for the acquisition of LARG was determined based on the five-day volume-weighted average of the Company's common shares at the time of closing of the share purchase agreement.

The Company determined that LARG did not meet the definition of a business under IFRS 3, Business Combinations, and as such has been accounted for as an asset aquisition. A summary of the consideration provided and the fair value of net identifiable assets acquired in the acquisition are as follows:

	#	$
Consideration provided:		
Common shares issued to LARG shareholders	104,025,001	6,241,500
Common shares issued to finder	1,400,000	84,000
Stock options issued (see note 9)	14,070,000	629,650
Severance liability		250,000

Jasperoide project, Peru
On February 26, 2020, the Company completed the acquisition of a 100% interest in LARG (see note 7). LARG's subsidiary C3 Peru holds a 100% beneficial interest in eight exploration concessions and has two option agreements to earn a potential 100% in five additional concessions. These 13 concessions comprise the Jasperoide copper-gold project, located in the Andahuaylas-Yauri belt of Peru. The Jasperoide project concessions cover a total area of 5,696 hectares. For the five concessions under option agreements, the Company must incur a cumulative total of US$5 million (including a minimum of US$2,000,000 for La Bruja) in exploration (approx. US$2.9 million incurred to February 28, 2021 including LARG and KA Oro expenditures prior to the February 26, 2020 acquisition date) and provide a balance of US$1,820,000 in cash option payments as detailed below.

La Bruja
Two concessions are subject to an option agreement with Inversiones La Bruja S.A.C. (“La Bruja”), where the Company can earn a 100% interest in the equity shares of La Bruja subject to minimum exploration expenditures of US$2,000,000 and total cash option payments of US$2,000,000. During June 2020, amending agreements to adjust the timing of cash option payments and exploration expenditure requirements were concluded. Cash option payments totalling US$180,000 have been provided to February 28, 2021 with a balance of US$1,820,000 in future payments as follows.

Due date	Cash US$	Cumulative exploration expenditures US$
August 31, 2021	320,000	500,000
August 31, 2022	500,000	-
August 31, 2023	1,000,000	1,500,000
Total	1,820,000	2,000,000

(expressed in Canadian dollars)

As at February 28, 2021, a total of US$630,693 of cumulative exploration expenditures had been incurred with a balance of US$1,369,307 remaining. Following the earn-in of a 100% interest in the concessions a net smelter return ("NSR") royalty of 1.5% would be payable to the former shareholders of La Bruja.

Ares
Three concessions are subject to an option agreement with Compania Minera Ares S.A.C. (“Ares”) where the Company has the right to earn an initial 51% interest in these concessions subject to incurring cumulative exploration expenditures of US$5,000,000, including certain administrative costs, by October 2023. As of February 28, 2021, a total of US$2,928,925 in expenditures had been incurred with an outstanding balance of US$2,071,075 remaining. The La Bruja concessions are located within an area of interest defined in the option agreement such that exploration expenditures of $630,693 incurred for the La Bruja concessions also qualify for the Ares earn-in.

Following the earn-in of a 51% interest in these mineral concessions, a new joint venture company is to be formed where the Company would hold an initial 51% equity interest and Ares would hold a 49% equity interest. Either party will then be required to co-fund their pro-rata share of ongoing exploration expenditures or would be subject to dilution. If either party were diluted to less than a 15% interest their interest would convert to a 1.5% NSR royalty with the other party then holding a 100% interest in the joint venture company. If the Company maintains greater than a 50% interest in the joint venture it would continue to be operator.

Bellas Gate property agreements

OZ Minerals Ltd. agreements

Current OZ Minerals agreement
During September 2016, the Company announced it had finalized a heads of agreement ("HoA") with OZ Minerals Ltd., an Australian copper-gold producer listed on the Australian Securities Exchange ("OZ Minerals"), to acquire all of OZ Minerals' property holdings in Jamaica which include the 70% interest that OZ Minerals had earned in the Bellas Gate Project (see below) and five licences covering 276 square kilometres which OZ Minerals had acquired directly in 2014. Additionally, the Company retained a 100% interest in the Above Rocks project as OZ Minerals elected not to proceed with the joint venture earn-in (see below). A definitive legal agreement incorporating the terms of the HoA was concluded in January 2017.

Under the terms of the definitive agreement, for the acquisition of the 70% interest in the Bellas Gate Project the Company is obligated to: (i) pay OZ Minerals $8.5 million within one year of commencement of commercial production at Bellas Gate; (ii) pay OZ Minerals an additional $4 million within two years of commencement of commercial production; and, (iii) grant OZ Minerals a 2% net smelter royalty (NSR) with a buyback right of two-thirds of the NSR for $1.3 million with any NSR payments capped at a maximum amount of $20 million.

Additionally, the Company acquired a 100% interest in the five OZ Minerals licences consisting of the Arthur's Seat, Berkshire Hall, Mount Ogle, Shirley Castle and Windsor Castle Special Exclusive Prospecting Licences (SEPLs). Under the terms of the January 2017 agreement the Company was obligated to provide OZ Minerals a single payment of $1.5 million within one year of commencement of commercial production on any of the five licences. Each of the licences was subject to a 2% NSR with a buyback of one-half of the NSR for $500,000. During May 2019, the Company completed amendments to the agreement with OZ Minerals to: (i) waive the $1.5 million payment within one year of commencement of commercial production if the mineral product is less than 10,000 tonnes per annum; and, (ii) reduce the 2% NSR to a 1% NSR with a buyback of one-half for $250,000 on any of the SEPLs.

On June 19, 2019, the Company announced an agreement with Geophysx Jamaica Ltd. ("Geophysx"), pursuant to which Geophysx agreed to acquire six of the Company's SEPLs located in Jamaica including four of the SEPLs acquired from OZ Minerals and two of the Rodinia SEPLs. The SEPLs contain early-stage copper-gold exploration projects and include the Belvedere, Mount Royal, Mount Ogle, Berkshire Hall, Windsor Castle and Shirley Castle SEPLs.

Pursuant to this agreement, Geophysx acquired a 100% interest in each of the projects for total cash of $277,605 (US$210,000). The Company retains a net smelter return (NSR) royalty of 1% on four of these SEPLs. Geophysx will have the right to buy down the first half of the NSR for US$50,000 per each 0.1% of the NSR (total of US$250,000) and the second half of the NSR for US$70,000 per each 0.1% of the NSR (total of US$350,000). Geophysx would make future cash payments to the Company at milestones following commencement of commercial production that could total US$240,000.

Preceding OZ Minerals agreements
During May 2013, the Company entered into a term sheet with OZ Minerals that lead to a farm-in joint venture agreement relating to the Bellas Gate Project which consists of the Bellas Gate and Browns Hall SEPLs which total 84 sq. km. in area.

The term sheet provided that upon certain conditions being met, that OZ Minerals and the Company would enter into an agreement which would potentially lead to a joint venture with respect to the Bellas Gate Project and the Company would grant OZ Minerals a right to enter into separate agreements on each of the Company’s other projects in Jamaica (which comprise the other four SEPLs, excluding the Bellas Gate Project SEPLs). During January 2014, OZ Minerals completed a US$900,000 equity investment in the Company and confirmed the satisfactory completion of their due diligence and that all conditions precedent had been satisfied such that the terms of the May 2013 term sheet became binding. A definitive agreement incorporating the terms contained in the term sheet and other conditions that are customary for mining exploration project joint venture agreements was completed during May 2015.

Significant terms of the definitive agreement included an initial phase of work by OZ Minerals for $500,000 of exploration expenditures. In total, to earn a 70% interest in the Bellas Gate Project, OZ Minerals was required to spend $6.5 million on exploration and make cash payments to the Company of $475,000 over a maximum period of 3.5 years. During January 2016, the Company announced that OZ Minerals had incurred cumulative exploration expenditures in excess of $8.3 million and had fulfilled the Phase 4 earn-in requirements to have a vested 70% interest in the Bellas Gate Project. OZ Minerals was then able to earn a further 10% interest by financing all work to the end of a feasibility study. This Phase 5 of the earn-in was initiated during February 2016.

Additionally, OZ Minerals was provided the option to fly airborne geophysics over the Company’s other three Jamaican projects (comprised of four SEPLs, see *Rodinia Jamaica property licenses* below) in return for the right to enter into joint ventures on any or all of the projects. OZ Minerals completed the airborne geophysics during June 2015. During September 2015, the Company and OZ Minerals entered into a definitive agreement with respect to the earn-in and potential joint venture on the Above Rocks Project. OZ Minerals did not elect to proceed with joint ventures on the Hungry Gully and Main Ridge Projects.

The Bellas Gate Project is subject to a 2% NSR in favour of Clarendon Consolidated Minerals Ltd. ("CCM").

(expressed in Canadian dollars)

Rodinia Jamaica property licenses

Acquisition of Rodinia Jamaica Limited
On March 31, 2012, the Company completed the acquisition of a 100% interest in Rodinia Jamaica Limited ("RJL") from Tigers Realm Metals Pty Limited ("TRM") and Rodinia Resources Pty Limited ("Rodinia"). At the time of the acquisition TRM held a non-controlling equity interest in the Company. RJL held a 100% interest in four SEPLs in Jamaica which are known as Belvedere, Hungry Gully, Main Ridge and Mount Royal and total 184 sq. km. in area. The Belvedere and Mount Royal SEPLs are contiguous and are considered one project area known as Above Rocks. Rodinia retains a 2% NSR in respect of the four SEPLs. The acquisition agreement for the SEPLs included certain commitments to conduct exploration work on the SEPLs within specified time periods as amended during December 2013. A series of common share issuances were completed during calendar 2014 and 2015 in lieu of completing the exploration work commitments. No further commitments remain.

OZ Minerals definitive agreement
During September 2015, the Company entered into a definitive agreement with OZ Minerals related to the earn-in and potential joint venture with respect to the Rodinia Jamaica licences comprising three separate projects. Terms of the agreement are as follows.

OZ Minerals had to elect on which projects it wished to earn into before December 20, 2015, and subsequently pay $50,000 to the Company within 30 days and spend $500,000 on exploration within one year of the election date to earn a 40% interest in each project elected. OZ Minerals then had a right to earn up to a 70% interest in any one of the three projects, in a staged earn-in, by paying $275,000 to the Company and solely funding $6.5 million of exploration expenditures over a period of five years or less. Thereafter, OZ Minerals could have advanced its interest in a project to 80% by solely funding all costs required for the completion of a National Instrument 43-101-compliant, Joint Ore Reserves Committee standard feasibility study.

On December 7, 2015, OZ Minerals provided the Company notice of its election to initiate an earn-in and potential joint venture with respect to the Above Rocks Project (comprising two SEPLs), totalling 104 sq. km. in area. The Company received the initial cash payment of $50,000 during December 2015. This payment was recorded as a reduction of mineral exploration property costs. OZ Minerals did not elect to proceed with joint ventures on the Hungry Gully and Main Ridge Projects. During September 2016, OZ Minerals elected not to continue with the Above Rocks earn-in.

Sale of licences to Geophysx Jamaica Ltd.
On June 19, 2019, the Company announced an agreement with Geophysx, pursuant to which Geophysx agreed to acquire six of the Company's SEPLs including four of the SEPLs acquired from OZ Minerals and the Belvedere and Mount Royal SEPLs (see above). The Company retains a 100% interest in the Hungry Gully and Main Ridge SEPLs subject to Rodinia's 2% NSR.

Stewart Brook Gold project, Nova Scotia
During April, 2019, the Company acquired, through staking, a 100% interest in four licences comprising the Stewart Brook Gold project area covering over 46 sq. km. in Guysborough County, Nova Scotia.

Rogers Creek and Mackenzie properties
The Rogers Creek and Mackenzie projects were acquired with the reverse takeover of Miocene. These properties are described as follows.

Rogers Creek
The Company currently has a 100% interest in the Rogers Creek property, which is subject to the earn-in by Tocvan Ventures Corp. ("Tocvan") discussed below, and is located within the Coastal Mountain Belt of British Columbia, northeast of Vancouver and consists of 23 claims totalling 212 sq. km. in area. A 2.5% NSR royalty is payable to the original vendor of the property upon production, half of which can be purchased for $1.25 million.

During May 2018, the Company entered into an option earn-in agreement with Tocvan who has a right to earn an 80% interest in the Rogers Creek project by spending $1,900,000 on exploration; payment of $25,000 cash; and the issuance of 1,300,000 Tocvan common shares over the initial four year earn-in period. Initial payments of $25,000 cash and 500,000 common shares were payable following the Canadian Securities Exchange's approval of Tocvan's going public transaction. These initial payments were received during March 2019. During June 2020, the Company received a second payment of 200,000 common shares. Following the successful completion of the earn-in, an 80% / 20% joint venture will be formed where the Company would retain a 20% interest in the project subject to funding future pro-rata expenditures. A 3% NSR royalty is payable by Tocvan to the Company with advance royalty payments of $50,000 per year after Tocvan has earned its 80% interest.

Mackenzie
The Company has a 100% interest in the Mackenzie property located within the Coastal Mountain Belt of British Columbia, north of Vancouver which consists of 9 claims totalling 91 sq. km. in area. The property is subject to a 2% NSR royalty which is payable upon production, 62.5% of which can be purchased at $1 million adjusted for the Consumer Price Index for the City of Vancouver. The Company has the first right of refusal to purchase the remaining 37.5% of the NSR. Additionally, a 1.75% NSR royalty on the Mackenzie property was granted to Wallbridge Mining Company Ltd. ("Wallbridge") in connection with Miocene's prior line of credit arrangements with Wallbridge. The Wallbridge NSR can be repurchased for $1.75 million.

(expressed in Canadian dollars)

9. Capital stock

Authorized

The Company is authorized to issue an unlimited number of common shares, having no par value.

Issued

Share issuances during fiscal 2021

During February 2021, the Company closed a brokered private placement financing in two tranches raising total gross proceeds of $7,414,509 with the issuance of 52,960,779 common shares. In connection with this financing, the Company paid cash commissions and a corporate finance fee in the aggregate amount of $518,446 and issued a total of 3,706,900 broker warrants to the agents. Each broker warrant entitles the holder to purchase one common share at a price of $0.14 per share until their expiry date on February 18, 2022. These broker warrants were recorded at a value of $286,000.

During January and February of 2021, the Company issued 2,347,500 common shares upon the exercise of 2,347,500 warrants for cash proceeds of $234,750; issued 8,060,000 common shares upon the exercise of 8,060,000 stock options for cash proceeds of $481,000; and, issued 24,000 common shares upon the exercise of 24,000 broker warrants for cash proceeds of $1,200.

Share issuances during fiscal 2020

During September 2019, the Company completed a non-brokered private placement financing raising total gross proceeds of $260,000 with the issuance of 5,200,000 units. Each unit was comprised of one common share of the Company and one common share purchase warrant. Each warrant is exercisable at $0.08 per share and expires on September 4, 2022. These warrants were recorded at a value of $66,390.

On January 17, 2020, the Company closed a non-brokered private placement financing with the issuance of 50,100,000 common shares at a price of $0.05 per common share raising gross proceeds of $2,505,000. In connection with this financing, the Company paid cash commissions of $49,860 and issued 997,200 broker warrants to finders. Each broker warrant entitles the holder to purchase a common share at a price of $0.05 per share until their expiry date on January 18, 2022. These broker warrants were recorded at a value of $25,758.

On February 26, 2020, the Company issued 104,025,001 common shares for the acquisition of LARG and 1,400,000 common shares to a finder in connection with this transaction (see note 7).

On August 26, 2020, the Company closed a non-brokered private placement financing with the issuance of 43,636,381 common shares at a price of $0.055 per common share raising gross proceeds of $2,400,001. In connection with this financing, the Company paid cash commissions of $108,319 and issued 1,755,000 broker warrants to finders. Each broker warrant entitles the holder to purchase a common share at a price of $0.055 per share until their expiry date on August 26, 2022. These broker warrants were recorded at a value of $66,500.

Warrants

As at February 28, 2021, a total of 26,882,250 warrants were outstanding as follows:

Number	Exercise price $	Expiry date
5,200,000	0.08	September 4, 2022
12,601,666	0.10	March 22, 2021
9,080,584	0.10	March 29, 2021
26,882,250	0.10	

During January and February 2021, a total of 2,347,500 warrants were exercised for cash proceeds to the Company of $234,750. Subsequent to quarter end, a total of 20,997,251 warrants were exercised for cash proceeds to the Company of $2,099,725. During February 2020, a total of 970,250 warrants exercisable at $0.10 expired. During May 2020, a total of 775,000 warrants exercisable at $0.25 expired.

On March 16, 2020, the Company announced a one-year extension of the expiry dates related to 14,911,666 warrants which were to expire on March 22, 2020 and 9,118,084 warrants which were to expire March 29, 2020. The new expiry dates are March 22, 2021 and March 29, 2021, respectively. An increase in estimated fair value of $130,270 was recorded during March 2020 relating to the expiry date extension of these warrants.

The fair value of warrants have been estimated using the Black-Scholes option pricing model and this value has been presented as a separate component of shareholders' equity. The range of assumptions used for the valuation of warrants during fiscal 2020 is as follows.

	2020
Expected life in years	3.0
Expected volatility	91%
Risk-free interest rate	1.70%
Dividend yield	Nil

Broker warrants

In connection with the February 2021 brokered placement the Company issued a total of 3,706,900 broker warrants to the agents. Each broker warrant entitles the holder to purchase one common share at a price of $0.14 per share until their expiry date on February 18, 2022. These broker warrants were recorded at a value of $286,000. In connection with the January 17, 2020 private placement, the Company issued 997,200 broker warrants to finders. Each broker warrant entitles the holder to purchase one common share at a price of $0.05 per share until their expiry date on January 18, 2022. These broker warrants were recorded at a value of $25,758. In connection with the August 26, 2020 private placement, the Company issued 1,755,000 broker warrants to finders. Each broker warrant entitles the holder to purchase one common share at a price of $0.055 per share until their expiry date on August 26, 2022. These broker warrants were recorded at a value of $66,500.

(expressed in Canadian dollars)

As at February 28, 2021, a total of 6,435,100 broker warrants were outstanding as follows.

Number	Exercise price $	Expiry date
973,200	0.05	January 18, 2022
1,755,000	0.055	August 26, 2022
3,706,900	0.14	February 18, 2022
6,435,100	0.10	

During January 2021, a total of 24,000 broker warrants were exercised for proceeds to the Company of $1,200. Subsequent to quarter end, during March 2021, a total of 180,000 broker warrants were exercised for proceeds to the Company of $9,900.

The fair value of these compensation options was estimated using the Black-Scholes option pricing model and the values were recorded in contributed surplus and share issue costs reducing capital stock. The range of assumptions used for the valuation of these compensation options are as follows.

	2021	2020
Expected life in years	1.0	2.0
Expected volatility	134%	90.5% to 93.8%
Risk-free interest rate	0.23%	0.22% to 1.72%
Dividend yield	Nil	Nil

Stock options

During October 2010, the Company approved a stock option plan available to its employees, officers, directors and service providers. The number of options available under the plan is a maximum of 10% of the total number of issued and outstanding common shares. The Compensation Committee recommends to the Board the vesting period and exercise rights for each stock option granted.

Activity with respect to stock options is as follows:

	Number	Weighted-average exercise price $	Expiry
Balance, August 31, 2019	15,135,000	0.11	February 2021 to May 2024
Forfeited	(500,000)	0.08	February 2021
Issued in exchange for LARG stock options (note 8)	14,070,000	0.05	December 2024
Balance, August 31, 2020	28,705,000	0.08	February 2021 to December 2024
Exercised	(8,060,000)	0.06	February 2021 to May 2024
Granted	8,000,000	0.11	January 2026
Balance, February 28, 2021	28,645,000	0.09	April 2022 to January 2026

As at February 28, 2021 outstanding stock options are as follows:

Options outstanding			Options exercisable		
Exercise price $	Number of options	Weighted-average remaining contractual life (years)	Number of options	Weighted-average remaining contractual life (years)	Expiry
0.05	8,610,000	3.8	8,610,000	3.8	December 7, 2024
0.08	5,450,000	3.2	5,450,000	3.2	May 15, 2024
0.10	2,085,000	1.2	2,085,000	1.2	April 30, 2022
0.10	500,000	1.3	500,000	1.3	June 22, 2022

0.11	8,000,000	4.8	2,000,000	4.8	January 5, 2026
0.15	1,000,000	2.4	1,000,000	2.4	July 31, 2023
0.20	1,000,000	2.4	1,000,000	2.4	July 31, 2023
0.25	1,000,000	2.4	1,000,000	2.4	July 31, 2023
	28,645,000	3.5	22,645,000	3.2	

(expressed in Canadian dollars)

On January 5, 2021, the Company granted a total of 8,000,000 stock options to directors, officers, employees and consultants of the Company. These stock options are exercisable at $0.11 per share and expire on January 5, 2026. Subsequent to quarter end, during March 2021, the Company granted a total of 9,000,000 stock options to directors, officers, employees and consultants of the Company. These stock options are exercisable at $0.15 per share and expire on March 26, 2026. During April 2021, the Company granted a total of 1,000,000 stock options to an officer and a consultant of the Company. These stock options are exercisable at $0.17 per share and expire on April 15, 2026.

On February 26, 2020, in connection with the LARG acquisition the Company issued a total of 14,070,000 stock options exercisable at $0.05 per share in exchange for outstanding LARG options (see note 7).

During the six month period ended February 28, 2021, the Company recorded a total of $253,800 (2020 - $14,396) in share based compensation expense related to stock options. Share based compensation amounts are included in shareholders' equity as contributed surplus. The values determined using the Black-Scholes option pricing model, with respect to stock options granted during fiscal 2021 and 2020 utilized the following assumptions and values.

	2021	2020
Expected volatility	106.7%	96%
Expected option life (in years)	5.0	4.8
Risk-free interest rate	0.33%	1.62%
Expected dividend yield	Nil	Nil
Weighted-average exercise price	0.11	0.05
Weighted-average market price at grant date	0.11	0.06
Weighted-average fair value	0.085	0.045

The Company determines expected volatility in relation to both historical Company volatility and by analysis of comparable companies in the mineral exploration sector.

Restricted share unit / Deferred share unit plan ("RSU / DSU Plan")

On June 13, 2013, Company shareholders adopted a RSU/DSU Plan. The Plan provides for granting of RSUs and DSUs for the purpose of advancing the interests of the Company through motivation, attraction and retention of employees, consultants and non-employee directors by granting equity-based compensation incentives, in addition to the Company's stock option plan. The number of shares reserved for issuance for the RSU/DSU Plan and the stock option plan combined shall not exceed 20% of the issued and outstanding common shares on the date of adoption. Under the RSU/DSU Plan, no cash settlements are made as settlement is in common shares only. On June 16, 2017, shareholders of the Company approved an increase in the number of common shares reserved for the RSU/DSU Plan to 9,126,451. Under the terms of the RSU/DSU Plan, the number of common shares issued and issuable to insiders within a one-year period shall not exceed 10% of the issued and outstanding common shares; and, to any one insider within one year shall not exceed 5% of the issued and outstanding common shares. The maximum grant within a one-year period to any one participant shall not exceed 5% of the total issued and outstanding common shares.

Restricted share units

RSUs have been utilized to compensate participants for their individual performance based achievements and corporate performance, and they are intended to supplement stock option awards. The Company's Compensation Committee may determine the vesting schedule of RSUs at the time of grant. The settlement date shall be no later than the third anniversary of the date of grant and all payments in respect of the vested units shall be paid in full before the end of the same calendar year. Non-vested RSUs are forfeited if the participant voluntarily leaves employment with the Company. On exercise of RSUs, the shares are issued from treasury.

On January 5, 2021, the Company granted 1,500,000 RSUs to a director. These RSUs will vest over a one year period. During the three month period ended February 28, 2021, the Company recorded $27,500 in share based compensation expese with respect to these RSUs. As at August 31, 2020, no RSUs remained outstanding with all prior RSUs having vested and been settled with the issuance of shares. The value of RSUs granted is recorded as share based compensation expense in contributed surplus over the vesting period.

Deferred share units

DSUs have been utilized as a means of reducing the cash payable by the Company for amounts owing to non-executive directors. A DSU is a notional share that has the same value as one share of the Company as at the grant date. DSUs are settled with the issuance of common shares to directors when they retire from the Board. As DSUs are equity settled, they are fair valued based on the market value of the shares at the grant date.

As at February 28, 2021 and August 31, 2020, a total of 1,551,694 DSUs were outstanding having been previously granted to directors of the Company. No additional DSUs were granted during the six month period ended February 28, 2021 or during the year ended August 31, 2020.

(expressed in Canadian dollars)

10. Related party transactions and compensation of key management

The Company has contracts for management and geological services with its officers, directors and companies controlled by its officers and directors. Key management includes all persons named or performing the duties of Chief Executive Officer and President, Chief Financial Officer, Vice President and Director. Compensation awarded to key management has been recorded at the exchange amount, being the amount agreed to by the respective parties, and is with respect to short-term compensation and was conducted in the normal course of business. Amounts are summarized as follows:

	Three months ended February 28, 2021 $	Three months ended February 29, 2020 $	Six months ended February 28, 2021 $	Six months ended February 29, 2020 $
Salaries and contract fee expense of key management	225,027	127,187	351,788	260,112
Value of RSUs expensed	27,500	-	27,500	-
Value of stock options with officers and directors expensed (note 9)	-	7,198	-	14,396
	252,527	134,385	379,288	274,508

As at February 28, 2021, a total of $47,894 (August 31, 2020 - $21,038) is included in accounts payable and accrued liabilities with respect to amounts due to key executive management for service contract obligations and expenses.

The Company has management service agreements with each of its President and Chief Executive Officer, Vice President Exploration, Vice President Business Development and Chief Financial Officer which provide for a payment upon termination without cause. The President and Chief Executive Officer would be entitled to the greater of one month's compensation for each year of service or six month's compensation. With respect to the Vice President Exploration, Vice President Business Development and Chief Financial Officer, these payments are equivalent to three months' compensation for each of these individuals. The service agreements for the Vice President Business Development and Chief Financial Officer also provide that under certain conditions, including a change in control of the Company, that each of these individuals would be entitled to a lump sum payment equivalent to six months' compensation irrespective of whether their services were retained subsequent to the change in control.

11. Financial instruments and risk management

As at February 28, 2021, the Company's financial instruments include cash and cash equivalents, restricted deposits, marketable securities, accounts payable and accrued liabilities. Due to the short-term nature of these financial instruments the carrying values approximate their fair values.

The Company’s activities expose it to a variety of financial risks: credit risk, liquidity risk, price risk, currency risk and interest rate risk. These condensed consolidated interim financial statements do not include all financial risk management information and disclosures required in the annual consolidated financial statements; they should be read in conjunction with the Company’s annual financial statements as at August 31, 2020. There have been no changes in the Company’s risk management policies or procedures since the year end.

12. Segmented information

The Company's operations comprise one reportable segment being the exploration and development of mineral resource properties. The Company's corporate and administrative offices are in Ontario, Canada. The Company's exploration property assets are in Peru, Jamaica and in Nova Scotia and British Columbia, Canada. Long-term assets by geographic area are as follows:

	February 28, 2021			August 31, 2020		
	Equipment $	Mineral exploration properties $	Deferred exploration expenditures $	Equipment $	Mineral exploration properties $	Deferred exploration expenditures $
Canada	15,627	3,182,452	419,819	18,264	3,182,452	416,669
Peru	32,763	7,717,790	1,355,859	1,038	7,728,935	248,991
Jamaica	4,035	2,603,850	4,752,187	4,283	2,604,203	4,808,198
	52,425	13,504,092	6,527,865	23,585	13,515,590	5,473,858

(expressed in Canadian dollars)

13. Capital management

The Company's capital structure is comprised of shareholders' equity. The Company is not subject to externally imposed capital requirements. The Company's objectives when managing its capital structure are to preserve the Company's access to capital markets and its ability to meet its financial obligations and to finance its exploration activities and general corporate costs (see note 1, going concern).

The Company monitors its capital structure using future forecasts of cash flows, particularly those related to its exploration programs.

The Company manages its capital structure and makes adjustments to it to maintain flexibility while achieving the objectives stated above. To manage the capital structure, the Company may adjust its exploration programs, operating expenditure plans, or issue new common shares and warrants. The Company's capital management objectives have remained unchanged over the periods presented in these consolidated financial statements.

14. Supplemental cash flow information

Non-cash transactions not reflected in the consolidated statements of cash flows are as follows:

	Six months ended February 28, 2021 $	**Six months ended February 29, 2020 $**
Exploration expenditures included in accounts payable and accrued liabilities	356,442	5,407
Depreciation of field vehicle and equipment charged to exploration expenditures	3,872	3,975
Shares issued for acquisition of LARG (note 7)	-	6,241,500
Shares issued to finder for acquisition of LARG (note 8)	-	84,000
Stock options issued in exchange for LARG stock options (note 8)	-	629,650

15. Global COVID-19 pandemic

The outbreak of COVID-19 has resulted in governments worldwide enacting emergency measures to combat the spread of the virus. Measures taken to contain the spread of the virus, including travel bans, quarantines, social distancing, and closures of non-essential services have triggered significant disruptions to businesses worldwide, resulting in an economic slowdown. The duration and impact of the COVID-19 pandemic is unclear at this time and as a result it is not possible for management to estimate the severity of the impact it may have on the financial results and operations of the Company in future periods. COVID-19 may hinder both the Company’s ability to conduct exploration activities in the jurisdictions that it operates in and its ability to raise financing for exploration or operating costs due to uncertain capital markets, supply chain disruptions, increased government regulations and other unanticipated factors, all of which may also negatively impact the Company’s business and financial condition. It is management’s assumption that the Company will continue to operate as a going concern.

16. Subsequent events

Exercise of warrants and broker warrants
During March 2021, a total of 20,997,251 warrants due to expire during March 2021 were exercised for proceeds to the Company of $2,099,725. A balance of 684,999 warrants expired. Additionally, during March 2021, a total of 180,000 broker warrants were exercised for proceeds to the Company of $9,900.

Stock option grants
On March 26, 2021, the Company granted a total of 9,000,000 stock options to directors, officers, employees and consultants of the Company. These stock options are exercisable at $0.15 per share and expire on March 26, 2026. A total of 2,000,000 of these stock options vested immediately, while 6,000,000 stock options will vest one year from the date of grant. Additionally, on April 15, 2021, the Company granted 1,000,000 stock options to an officer and a consultant of the Company. These stock options are exercisable at $0.17 per share and expire on April 15, 2026. A total of 500,000 of these stock options vested immediately, while 500,000 stock options will vest one year from the date of grant.
